Pensacola Real Estate is the Safest Invest-

met for your Idle Cash.

A few months ago we began building ten houses in the West End, to sell on the rent-paying plan. They will be finished this week. Every one has been seld this week. Every one has been sold. Since these houses were begun property in that section has advanced but we did not advance our price. Some of those who purchased have been ofered a profit on their investment. Watch West End property; it is rapidly oming to the front, increasing in value

very day.

The country has been through a most depressing period during the past year. Stocks and business generally has been affected, but real estate in Pensacola has not depreciated one cent. Our belief is that with the coming year, when the street paving is begun and other improvements under way, you will see values going up in all parts of the city, and those who are fortunate enough to own property will make money. Get in on the ground floor—buy now.

If you want to buy or sell in art of the City, call or write us.
